MINING OPERATIONS RESUME AT KAINANTU GOLD MINE

Mining operations at the Kainantu gold mine have resumed with the power supply being reconnected to the upper portal and other damage caused by the recent flooding event made good.

Mr Holzberger, Managing Director, said “the mine is now ramping-up to the production level established prior to the loss of power and that he expected it would take another week to complete the ramp up”.

He added that the process plant had continued to operate for 5 days of the interruption to mine production by treating stockpiled ore. “
